**Subject:** Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/UP/IND2/78338/2015 dated 21 Jun 2022. The particulars of the environmental clearance granted to the project are as below.

- |  |   |
|--|---|
| 1. EC Identification No.                   | <b>EC22B025UP187363</b>   |
| 2. File No.                                | 7159-6746   |
| 3. Project Type                            | Expansion   |
| 4. Category                                | B1  |
| 5. Project/Activity including Schedule No. | 5(j) Sugar Industry   |
| 6. Name of Project                         | Capacity Expansion of Sugar Mill from 11,000 TCD along with 55 MW Co-Generation Power Plant to 16,000 TCD along with 75 MW Co-Generation Power Plant at Ajbapur, P.O. Mullapur, District Lakhimpur Kheri, Uttar Pradesh by M/s DCM Shriram Ltd. |
| 7. Name of Company/Organization            | DCM SHRIRAM LTD.  |
| 8. Location of Project                     | Uttar Pradesh   |
| 9. TOR Date                                | 14 Nov 2015   |

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 01/11/2022

(e-signed)  
 Member Secretary  
 Member Secretary  
 SEIAA - (Uttar Pradesh)

*Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.*

**Sub: Environmental Clearance for Proposed Capacity Expansion of Sugar Mill from 11,000 TCD along with 55 MW Co-Generation Power Plant to 16,000 TCD along with 75 MW Co-Generation Power Plant at Ajbapur, P.O. Mullapur, Lakhimpur Kheri, U.P., M/s DCM Shriram Ltd.**

Dear Sir,

This is with reference to your application / letter dated 10-12-2021, 27-01-2022, 21-06-2022, 10-07-2022, on above mentioned subject. The matter was considered by 674<sup>th</sup> SEAC in meeting held on 20-07-2022 and 645<sup>th</sup> SEIAA in meeting held on 01-09-2022.

A presentation was made by the project proponent along with their consultant M/s Vardan Environet to SEAC on 01-09-2022.

### **Project Details Informed by the Project Proponent and their Consultant**

The project proponent, through the documents and presentation gave following details about their project –

1. The environmental clearance are sought for Capacity Expansion of Sugar Mill from 11,000 TCD along with 55 MW Co-Generation Power Plant to 16,000 TCD along with 75 MW Co-Generation Power Plant at Ajbapur, P.O. Mullapur, Lakhimpur Kheri, U.P., M/s DCM Shriram Ltd.
2. The standard terms of reference in the matter were issued through online parivesh portal on 13/12/2021.
3. The Public hearing was organized by Uttar Pradesh State Pollution Control Board under the Chairmanship of Chief development Officer, Lakhimpur Kheri 20.05.2022 at 04:00 PM at the project site, Village- Ajbapur, P.O. Mullapur, District Lakhimpur Kheri, Uttar Pradesh.
4. Final EIA report submitted by project proponent on 21/06/2022.
5. Salient features of the project:

S. No.	Particulars	Details									
1.	Nature and size of the Project	Capacity Expansion of Sugar Mill from 11,000 TCD along with 55 MW Co-Generation Power Plant to 16,000 TCD Sugar Mill along with 75 MW Co-Generation Power Plant M/s DCM Shriram Ltd.									
2.	Location details										
	Plot/Survey/Khasra No.	Ajbapur, P.O. Mullapur									
	Tehsil	Mohammadi									
	District	Lakhimpur Kheri									
	State	Uttar Pradesh									
	Latitude and Longitude	<table><tr><th>Point</th><th>Latitude</th><th>Longitude</th></tr><tr><td>1</td><td>27°47'20.71"N</td><td>80°11'46.47"E</td></tr><tr><td>2</td><td>27°47'21.43"N</td><td>80°11'48.93"E</td></tr></table>	Point	Latitude	Longitude	1	27°47'20.71"N	80°11'46.47"E	2	27°47'21.43"N	80°11'48.93"E
Point	Latitude	Longitude									
1	27°47'20.71"N	80°11'46.47"E									
2	27°47'21.43"N	80°11'48.93"E									

		3	27°47'24.29"N	80°11'52.61"E	
		4	27°47'25.69"N	80°11'56.25"E	
		5	27°47'16.27"N	80°11'51.02"E	
		6	27°47'11.98"N	80°11'49.99"E	
		7	27°47'18.21"N	80°11'56.93"E	
		8	27°47'17.23"N	80°12'9.39"E

		10	27°46'57.15"N	80°12'11.95"E	
		11	27°46'47.04"N	80°12'0.07"E	
		12	27°46'58.58"N	80°11'49.94"E	
	Toposheet No.		G44C1, G44C2, G44C5 & G44C6 Sol		
	3.	Area Details			
		Total Project Area	46.891 Ha. (Project will be carried out in the existing plant area. No requirement of additional land)		
4.	Environmental Setting Details (with approximate aerial distance and direction from the project site)				
	Nearest major settlement	Ajhapur at 0.41 km in North direction for the project site			
	Nearest Highway	NH- 30 (1.86 km in South direction)			
	Nearest Railway Stations	Jang Bahadurganj Railway Station at a distance of 2.74 km in SW direction			
	Nearest Airport	Chaudhary Charan Singh International Airport, Lucknow at a distance of 131.65 km in SSE direction			
	National Parks/ Wild Life Sanctuaries/ Biosphere Reserves/RF and PF within 10km radius	There is no National Park and Biosphere Reserve within 10 km radius. No RF/PF within the 10 km of the project site.			
	Nearest Water Bodies	<ul style="list-style-type: none"><li>• Chhuha Nala (0.4 km in East Direction)</li><li>• Sarda Canal (1.58 km in WSW direction)</li><li>• Gomati River (6.44 km in East direction)</li></ul>			
	Nearest Education Centre	Primary School Mastipur, at a distance of 3.5 km in SW direction.			
	Defense Installations	Not within 10 km radius area from project site			
	Seismic Zone	Seismic Zone - IV as per IS: 1893 (Part-I): 2002			
5.	Cost Details				
	Proposed Project Cost	Rs. 275 Crore (Total cost after expansion would be Rs. 750.15 Crores).			
	Cost for Environmental Management Plan (EMP)	Rs. 4.0 Crore (400 Lakhs)			
	Cost for OH&S	Capital Expenditure - Rs. 46.0 lakhs Recurring Expenditure - Rs. 2.0 Lakhs per year			
6.	Basic Requirements of the Project				
	Fresh Water (KLD)	2300 KLD (Including 150 KLD for Proposed Expansion) Source: Ground water will be used in the sugar mill through Tube wells.			
	ETP Capacity	3200 KLD			
	ETP Sludge	14.5 TPD			
	STP Capacity	250 KLD			
	Power	75 MW			

		Source: In house Co-Generation Power Plant of 75 MW capacity D.G. sets: 1*1010 kVA, 1*380 kVA, 1*750 kVA			
	Fuel	For Boiler: Bagasse from own mill For DG Set: HSD from Local Market			
	Manpower	Particulars	Existing	Proposed	Total after expansion
		Man-Power	397 (Permanent) & 349 (Contractual)	24 (Permanent) & 0 (Contractual)	421 (Permanent) & 349 (Contractual)

6. Product details with capacity:

Product	Existing Capacities	Proposed Capacities	Total Capacities	Transportation
Sugar	11000 TCD	5000 TCD	16000 TCD	Via Trucks, Trolley
Power Generation	55 MW	20 MW	75 MW	In house/Export

7. Land use details:

Sr. No.	Particulars	Area in Ha.	Percentage
1	Raw Material Storage Area	6.065	12.93
2	Production Area	5.442	11.61
3	Utilities	1.231	2.63
4	Open Area	14.01	29.88
5	Green Belt Area	16.153	34.45
6	Road and Paved Area	2.654	5.66
7	Area for expansion	1.336	2.85
	Total	46.891	100.00

8. Raw material details:

S. No.	Raw Material	Quantity	Source of the Raw Material & Mode of Transportation
1.	Sugarcane	16000 TCD	From reserve area by tractor trolley/trucks.
Chemicals			
2.	Lime	23.2 TPD	Will be sourced from Lime Stone mines and transported by trucks
3.	Phosphoric Acid	1.06 TPD	Will be purchased from Phosphoric Acid Manufacturers and will be transported by trucks
4.	Caustic soda	35 TPD	Will be purchased from Caustic Soda Manufacturers and will be transported by trucks
5.	Common Salt	1.5 TPD	Will be sourced from Indian Market.
Fuel Requirement			
6.	Bagasse	4000 TPD	From own mill

9. The project proposal falls under category-5(j) of EIA Notification, 2006 (as amended).

Based on the recommendations of the State Level Expert Appraisal Committee Meeting (SEAC) held on 20-07-2022 the State Level Environment Impact Assessment Authority (SEIAA) in its Meeting held 01-09-2022 and decided to grant of environmental clearance on the proposal as above alongwith standard environmental clearance conditions prescribed by MoEF&CC, GoI and following additional conditions:

### **Additional Conditions:**

- I. Directions/suggestions given during public hearing and commitment made by the project proponent should be strictly complied.
- II. Annual water audit will be carried out and will adopt water conservation practices.
- III. Spray pond over flow and cooling tower blow down will be treated separated.
- IV. Ash generated in boiler will be disposed of in safe and eco-friendly manner. For doing so, a separate management plan should be prepared and submitted to SPCB and SEIAA within a period of 1 month.
- V. Three tier green belt shall be developed with native species all along the periphery of the project. Site survival rate of green belt developed shall be monitored on periodic basis to ensure that damaged plants are replaced with new plants in the subsequent years (Miyawaki method to be adopted for plantation)
- VI. Performance test shall be conducted on all pollution control system every year and report shall be submitted to Regional office of the MoEF and CC
- VII. Greening and paving shall be implemented in the plant area to arrest soil erosion and dust pollution exposed soil surface.
- VIII. Properly covered vehicles shall be used while transporting material and product.
- IX. Allergy test should also be included in health checkup of works.
- X. Industry should comply with the CPCB charter guidelines for sugar units and treated water shall be used for the different purposes as per the requirement in industry..
- XI. Industry shall comply with the water consumption as per the revised plan submitted to the Directorate of Environment at the time of presentation..
- XII. Industry shall comply with the condition of the Ministry of Environment, Forest and Climate Change office memorandum dated 08/06/2022.
- XIII. Industry shall comply in a time bound manner with the revised CCR plan submitted to the Directorate of Environment and submit the compliance progress time to time to the concerned authority.
- XIV. Industry shall comply with the queries/questions raised by the public representatives during the public hearing dated 20/05/2022 and submit the compliance report in tabular form.

### **Standard Environmental Clearance Conditions prescribed by MoEF&CC:**

#### ***I. Statutory compliance:***

- I. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.
- II. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
- III. The project proponent shall prepare a Site-Specific Conservation Plan & Wildlife Management Plan and approved by the Chief Wildlife Warden, if applicable. The recommendations of the approved Site-Specific Conservation Plan / Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six - monthly compliance report. (in case of the presence of schedule-I species in the study area).
- IV. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State pollution Control Board/ Committee.

- v. The project proponent shall obtain authorization under the Hazardous and other Waste Management Rules, 2016 as amended from time to time.
- vi. The Company shall strictly comply with the rules and guidelines under Manufacture, Storage and Import of Hazardous Chemicals (MSIHC) Rules, 1989 as amended time to time. All transportation of Hazardous Chemicals shall be as per the Motor Vehicle Act (MVA), 1989

**II. Air quality monitoring and preservation:**

- I. The project proponent shall install 24x7 continuous emission monitoring system at process stacks to monitor stack emission with respect to standards prescribed in Environment (Protection) Rules 1986 and connected to SPCB and CPCB online servers and calibrate these system from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.
- II. The project proponent shall install system carryout to Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the plant area at least at four locations (one within and three outside the plant area at an angle of 120° each), covering upwind and downwind directions.
- III. The project proponent shall submit monthly summary report of continuous stack emission and air quality monitoring and results of manual stack monitoring and manual monitoring of air quality /fugitive emissions to Regional Office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six- monthly monitoring report.
- IV. Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed stack emission and fugitive emission standards.
- v. The National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R. No. 826(E) dated 16th November, 2009 shall be complied with.
- vi. Sulphur content should not exceed 0.5% in the coal for use in coal fired boilers to control particulate emissions within permissible limits (as applicable). The gaseous emissions shall be dispersed through stack of adequate height as per CPCB/SPCB guidelines.
- vii. The DG sets shall be equipped with suitable pollution control devices and the adequate stack height so that the emissions are in conformity with the extant regulations and the guidelines in this regard.
- VIII. Storage of raw materials, coal etc shall be either stored in silos or in covered areas to prevent dust pollution and other fugitive emissions.

**III. Water quality monitoring and preservation**

- I. For online continuous monitoring of effluent, the unit shall install web camera with night vision capability and flow meters in the channel/drain carrying effluent within the premises and connected to SPCB and CPCB online servers.
- II. Zero Liquid Discharge shall be ensured and no waste/treated water shall be discharged outside the premises.
- III. Process effluent /any wastewater shall not be allowed to mix with storm water. The storm water from the premises shall be collected and discharged through a separate conveyance system.
- IV. The effluent discharge shall conform to the standards prescribed under the

Environment (Protection) Rules, 1986, or as specified by the State Pollution Control Board while granting Consent under the Air/Water Act, whichever is more stringent.

- v. Total fresh water requirement shall not exceed the proposed quantity or as specified by the Committee. Prior permission shall be obtained from the concerned regulatory authority/CGWA in this regard.
- vi. Industrial/trade effluent shall be segregated into High COD/TDS and Low COD/TDS effluent streams. High TDS/COD shall be passed through stripper followed by MEE and ATFD (agitated thin film drier). Low TDS effluent stream shall be treated in ETP and treated effluent shall conform to the standards prescribed under the Environment (Protection) Rules, 1986 and treated water from ETP shall be used for irrigation.
- vii. The Company shall harvest rainwater from the roof tops of the buildings and storm water drains to recharge the ground water and utilize the same for different industrial operations within the plant.

#### *IV. Noise monitoring and prevention*

- i. Acoustic enclosure shall be provided to DG set for controlling the noise pollution.
- ii. The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation.
- iii. The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time

#### *V. Energy Conservation measures*

- i. The energy sources for lighting purposes shall preferably be LED based.

#### *VI. Waste management*

- i. Hazardous chemicals shall be stored in tanks, tank farms, drums, carboys etc. Flame arresters shall be provided on tank farm and the solvent transfer through pumps.
- ii. Process organic residue and spent carbon, if any, shall be sent to cement industries. ETP sludge, process inorganic & evaporation salt, if hazardous shall be disposed off to the TSDF.
- iii. **The company shall undertake waste minimization measures wherever feasible as below :-**
  - a. Metering and control of quantities of active ingredients to minimize waste.
  - b. Reuse of by-products from the process as raw materials or as raw material substitutes in other processes.
  - c. Use of automated filling to minimize spillage.
  - d. Use of Close Feed system into batch reactors.
  - e. Venting equipment through vapour recovery system.
  - f. Use of high pressure hoses for equipment clearing to reduce wastewater generation

#### *VII. Green Belt*

- i. Green belt shall be developed in an area equal to 33% of the plant area with a native tree species in accordance with CPCB guidelines. The greenbelt shall inter alia cover the entire periphery of the plant.

#### *VIII. Safety, Public hearing and Human health issues*

- I. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
- II. The PP shall provide Personal Protection Equipment (PPE) as per the norms of Factory Act.
- III. Training shall be imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees shall be undertaken on regular basis. Training to all employees on handling of chemicals shall be imparted.
- IV. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- V. Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.
- VI. There shall be adequate space inside the plant premises earmarked for parking of vehicles for raw materials and finished products, and no parking to be allowed outside on public places

**IX. Corporate Environment Responsibility**

- I. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility.
- II. The company shall have a well laid down environmental policy duly approve by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements /deviation/violation of the environmental / forest /wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation/ violation of the environmental/ forest / wildlife norms I conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
- III. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive , who will directly to the head of the organization.
- IV. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.
- V. Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.

**X. Miscellaneous**

- I. The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and

in addition this shall also be displayed in the project proponent's website permanently.

- II. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
- III. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
- IV. The project proponent shall monitor the criteria pollutants level namely; PM<sub>10</sub>, SO<sub>2</sub>, NO<sub>x</sub> (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.
- V. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
- VI. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
- VII. The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
- VIII. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
- IX. The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.
- X. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC).
- XI. Concealing factual data or submission of false /fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- XII. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- XIII. The Ministry reserves the right to stipulate additional conditions if found necessary.
- XIV. The Company in a time bound manner shall implement these conditions.
- XV. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
- XVI. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their

amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.

- xvii. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

Concealing factual data and information or submission of false/fabricated data and failure to comply with any of the conditions stipulated in the Prior Environmental Clearance attract action under the provision of Environmental (Protection) Act, 1986.

This Environmental Clearance is subject to ownership of the site by the project proponents in confirmation with approved Master Plan for Lakhimpur. In case of violation; it would not be effective and would automatically be stand cancelled.

The project proponent has to ensure that the proposed site is not a part of any no-development zone as required/prescribed/identified under law. In case of the violation this permission shall automatically be deemed to be cancelled. Also, in the event of any dispute on ownership or land use of the proposed site, this Clearance shall automatically be deemed to be cancelled.

Further project proponent has to submit the regular 6 monthly compliance report regarding general & specific conditions as specified in the E.C. letter and comply the provision of EIA notification 2006 (as Amended).

These stipulations would be enforced among others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006 including the amendments and rules made thereafter.
